„How can we accelerate the process of connecting at a deep meaningful level, to enable us to focus on our business questions more quickly and effectively?“ - The client challenge at the start of a Post-Merger Integration process in 2002 that encouraged me to begin developing cultureQs®.

cultureQs® is a Change and Integration Accelerator that that uses powerful questions to inspire participants to reflect on the foundations of their beliefs, attitudes and behaviours.

While engaging in deep meaningful conversations, people connect quickly, enabling the invisible borders that hinder collaboration to fall away.

Wasteful conflict is reduced; people (re-)focus on the personal and professional questions that matter; innovative potential is released and performance is enhanced.
